

# SMART VALVE™

## BRAINS FOR YOUR WATER METER™

“ Since installing the valve to our main water line at the Doubletree Tarrytown we have seen consistent savings on our monthly water bill of 10% to 15%. This is phenomenal and has helped improve our bottom line! ”

—Rich Friedman, General Manager  
Doubletree, Tarrytown

Patent #US 8,707,981  
NSF/ANSI 61 & 372 certified

### Specifications

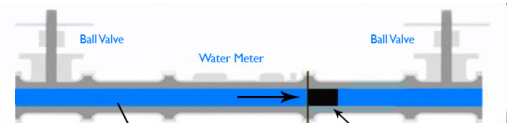

Valves are available in all standard plumbing sizes with customizing available.

- Valve body, plunger: Acetron GP
- Shaft, spring, spring clip, backplate: Food-grade Stainless Steel
- Bearing: Rulon

\* Applications include: hotels, apartments, restaurants, laundromats, car washes, food/beverage, manufacturing, landscape irrigation, and many more.

### Installation

The SMART VALVE™ is designed to be installed in an existing pipe joint on the USER side of the water meter. The valve is made in flanged and threaded configurations according to your system design. Installation should be performed by a licensed plumber.

Smart Valve is a **‘Set it and Forget it’** device. No maintenance, no operational costs and comes with a 10-year warranty.
